

'The Facts'

Keeping you in touch with information from
Graham's Factree
Vol 3 December 2010

Welcome to the next edition of The Evaluation Facts, a regular newsletter keeping you in touch with the latest cultivar evaluation information, from the cultivar evaluation program being coordinated by Graham's Factree.

In order to assist growers to make direct comparisons between the maturity timing of a commercially planted variety against a test variety from the newsletter, we will be endeavouring to include a brief note of what commercial varieties are currently being picked out of the evaluation region.

We have also started to include a 'commercial comparator' section on the evaluation sheets so where possible this information will also be completed.

Obviously exact picking dates can vary from grower to grower, within one region but we hope that this information can act as a guide and be beneficial to those reading the newsletter.

Currently in Renmark, 'Rose Diamond' is almost finished being picked and 'Arctic Star' and 'Kay Sweet' are finished. 'Sweet River' will start being picked this week.

Please do not hesitate to contact any of our staff at Graham's Factree to discuss any of the cultivars currently available, or undergoing testing. We would encourage any grower interested in participating in the evaluation program to contact their local association to register their interest.

This project is funded by HAL through voluntary contributions from Graham's Factree Pty Ltd with matched funds from the Australian Government.

IMPORTANT NOTICE - DISCLAIMER

Graham's Factree Pty Ltd and our officers and employees together with anyone associated with the cultivar evaluation program in any way ('We'), provide the information in this newsletter as a guide only. We do not warrant or represent that the information provided in this newsletter is free from errors or omissions or is suitable for your intended use. Subject to any terms implied by law which cannot be excluded, we disclaim all liability for any harm, loss or damage, including but not limited to any loss or damage caused by pests, diseases and/or viruses, or caused or resulting from your use of or reliance on any of the information provided in this newsletter. We strongly recommend that you obtain independent advice before you make any decisions in reliance on this newsletter. Specifically you should make and rely on your own enquiries in relation to any district performance, cropping ability, pollination or any other aspect of the cultivars and/or rootstock mentioned in this newsletter. Our liability for a breach of a condition or warranty implied by law and which cannot be excluded, is limited to the extent possible, at our option, to:
the supply of the relevant replacement trees, or equivalent trees; or
the payment of the cost of the replacement trees, or equivalent trees.
We will in no event be liable for any loss of profits or other loss or damage whatsoever.

Comments

Generally low yeilding, fruit can drop, Acid if too firm, unusual flavor when soft. Can be attractive looking, but yeild is its

Factree Editorial Notes:

Please note the comments box above should read: Can be attractive looking, but yield is its limiting factor.
