

Welcome to the first edition of The Evaluation Facts for the 2012-2013 season. The Evaluation Facts is a regular newsletter keeping you in touch with the latest information from Graham's Factree and the Cultivar Evaluation Project.

Welcome to the first edition of the Evaluation Project Newsletter for season 2012/13. The Evaluation Project is developing well with evaluations already coming out of the Riverland Primary Site for this season, and there is an expectation that we might see some first crop evaluations coming from some of the secondary sites located in other growing regions around the country.

It is hard to believe that the season is up and away with growers starting to pick the early varieties in most growing districts at present. Spring has again been a little hit and miss with some unseasonably warm weather followed by cold snaps creating havoc for fruit development and tree management alike.

Early districts on the North Coast of NSW appear to have had a light crop with an unusual fruit development and set which has hampered some growers in those regions. The crop load in other districts appears to be good to heavy with growers gearing up for a busy season. Mixed reviews on early varieties like 'Snow Angel' peach are coming in from different districts, with some growers able to achieve adequate size and sugars whereas others are having issues getting the very early variety to perform.

It is anticipated that this season will see the first semi commercial crop harvested from the initial plantings of 'Honey May' nectarine. Both 'Snow Angel' and 'Honey May' have been picked and evaluated at the Riverland trial site and their evaluations are made available in this edition of the Newsletter. In addition to these already commercialised varieties there are number of other early test varieties that have been evaluated with interesting results.

The Annual Report from last season's evaluations, as well as all the raw data, can be viewed online at **www.evaluations.factree.com.au**. If you wish to receive a hard copy of the report please contact our office on **03 9999 1999**.

This project is funded by HAL through voluntary contributions from Graham's Factree Pty Ltd with matched funds from the Australian Government.

IMPORTANT NOTICE - DISCLAIMER

The varieties identified by our "F" series Evaluation code number are in a testing/evaluation phase only and are not yet commercial. Graham's Factree Pty Ltd and our officers and employees together with anyone associated with the cultivar evaluation program in any way ('We'), provide the information in this newsletter as a guide only. We do not warrant or represent that the information provided in this newsletter is free from errors or omissions or is suitable for your intended use. Subject to any terms implied by law which cannot be excluded, we disclaim all liability for any harm, loss or damage, including but not limited to any loss or damage caused by pests, diseases and/or viruses, or caused or resulting from your use of or reliance on any of the information provided in this newsletter. We strongly recommend that you obtain independent advice before you make any decisions in reliance on this newsletter. Specifically you should make and rely on your own enquiries in relation to any district performance, cropping ability, pollination or any other aspect of the cultivars and/or rootstock mentioned in this newsletter. Our liability for a breach of a condition or warranty implied by law and which cannot be excluded, is limited to the extent possible, at our option, to:

- the supply of the relevant replacement trees, or equivalent trees; or
- the payment of the cost of the replacement trees, or equivalent trees.

We will in no event be liable for any loss of profits or other loss or damage whatsoever.

Cultivars are listed in order of maturity.
