### **Evaluation Scoring Scale**

**< 5/10** = poor variety and should not be seriously considered

**5/10** = variety displays some negative attributes but needs further consideration

**6/10** = variety is equal to the current commercial varieties available to growers and should be trialled by individual growers to see if it works for them.

**6.5/10** = variety is showing that it is superior to current commercial varieties and should be seriously considered for commercial planting.

**7/10 and above** = variety is very good and is highly recommended for growers to consider planting commercially.

### **IMPORTANT NOTICE - DISCLAIMER**

The varieties identified by our "F" series Evaluation code number are in a testing/evaluation phase only and are not yet commercial.
