

Welcome to the next edition of The Evaluation Facts, a regular newsletter keeping you in touch with the latest cultivar evaluation information, from the cultivar evaluation program being coordinated by Graham's Factree.

The evaluation project so far is travelling well and we are seeing plenty of fruit from the Primary site at Renmark. Currently the nursery is busily finishing spring budding trees for delivery this coming winter, this includes those varieties that are intended to be planted into the Evaluation Project's Secondary regional sites. At this stage Lisa and Graham haven't been to all growing regions to present the project to growers but we expect that they will be back on the road come mid January to finalise these meetings, so keep in touch with your local association for dates.

One exciting aspect of the Evaluation Project is the involvement of growers visiting the Zaiger breeding program in California. Grower associations that are collaborating with Graham's Factree on the Evaluation Project will have an opportunity to nominate a grower from their group for consideration to take part in this trip. Make sure to get in early as availability is limited and final decisions on the nominations will be made in February. If you are interested in any aspect of the Evaluation Project we urge you to contact your local association and express your interest.

In order to assist growers to make direct comparisons between the maturity timing of a commercially planted variety against a test variety from the newsletter, we will be endeavouring to include a brief note of what commercial varieties are currently being picked out of the evaluation region. Obviously, exact picking dates can vary from grower to grower and within one region however, we hope this information can act as a guide and be beneficial to those reading the newsletter.

Currently in Renmark, 'Summer Sweet' Peach and 'Grand Pearl' nectarine are both being picked with 'Fire Pearl' nectarine not too far away.

Everyone at Graham's Factree would like to take this opportunity to wish everyone a Happy New Year and all the best for the rest of the season.

This project is funded by HAL through voluntary contributions from Graham's Factree Pty Ltd with matched funds from the Australian Government.

Correction to data

Please note, that in Volume 2 of 'The Evaluation Facts' newsletter, we incorrectly listed a Peach with the cultivar code FTP0119. It should have been listed as FTP0118.

Please ensure if you wish to contact us to discuss or order trial trees of the variety concerned that you use the correct code, being FTP0118.

We apologise for any inconvenience.

Comments & Commercial Comparator

Usually better flavor than this year. Colour is also a problem, green background on soft fruit. Was not as bad last season. Some fruit does not full develop.

Overall Score /10

6
