

Welcome to the next edition of The Evaluation Facts, a regular newsletter keeping you in touch with the latest cultivar evaluation information, from the cultivar evaluation program being coordinated by Graham's Factree.

It has been quite a few weeks since our last edition and evaluations published this week will spread from mid to late January. Evaluations are still flowing in from the stonefruit primary site at Renmark and we are sure you will find some cultivars of interest in this edition of the Evaluation Facts including recently released 'Brittany Gold' apricot.

In order to assist growers to make direct comparisons between the maturity timing of a commercially planted variety against a test variety from the newsletter, we will be endeavouring to include a brief note of what commercial varieties are currently being picked out of the evaluation region. Obviously, exact picking dates can vary from grower to grower and within one region however, we hope this information can act as a guide and be beneficial to those reading the newsletter.

'Fire Sweet' and 'Fire Pearl' nectarines along with 'Primetime' plum and 'Tatura 204' peach were all being picked in the Renmark region around the 15th of January with 'Dapple Dandy' interspecific plum not far behind.

In this edition we also have some approximate pick dates out of the Cobram area which may also help growers in comparing the maturity sequences of the cultivars in the newsletter, these include 'Elegant Lady' peach which was picked around the 15th January and 'Zee Lady' Peach which was scheduled to be picked the week of the 17th January.

We would like to take this opportunity to remind everyone interested in the evaluation program and those who wish to continue receiving the newsletter next season, to contact their local grower association to express their interest.

This project is funded by HAL through voluntary contributions from Graham's Factree Pty Ltd with matched funds from the Australian Government.
