

'The Facts'

Keeping you in touch with information from
Graham's Factree
Vol 7 March 2011

Welcome to the next edition of The Evaluation Facts, a regular newsletter keeping you in touch with the latest cultivar evaluation information, from the cultivar evaluation program being coordinated by Graham's Factree.

Welcome to the final edition of The Facts for this season.

We would like to take this opportunity to provide everyone with a bit of a round up on how the Evaluation Project is progressing and again highlight the importance of contacting your local association so that you can continue to receive this newsletter come the new season.

At this stage we have successfully secured three sites that will evaluate the varieties managed by Factree, these include a site in Victoria's North East to evaluate cherries, the Renmark site to evaluate stonefruit and a site on the north coast of NSW to evaluate low chill varieties. We are also working with regional associations to establish sites in their local area to further evaluate varieties that have commercial promise.

A schedule of trips is now being finalized which will enable collaborators of the project (that includes nominated members from local associations) to travel to the United States to visit breeding programs like Zaiger Genetics in California, which is an excellent opportunity for our local growers to have direct involvement in the decision making process around what varieties to import into Australia. In the coming months, an end of year report will be made available to industry that will capture all of the data coming out of the evaluation blocks.

This is an exciting project that will, with the support of growers, provide a huge benefit to the industry. We urge anyone who has an interest in the project or wants further information about any aspect of the project, to contact either their local growers associations or the staff at Graham's Factree.

This project is funded by HAL through voluntary contributions from Graham's Factree Pty Ltd with matched funds from the Australian Government.

IMPORTANT NOTICE - DISCLAIMER

The varieties identified by our "F" series Evaluation code number are in a testing/evaluation phase only and are not yet commercial. Graham's Factree Pty Ltd and our officers and employees together with anyone associated with the cultivar evaluation program in any way ('We'), provide the information in this newsletter as a guide only. We do not warrant or represent that the information provided in this newsletter is free from errors or omissions or is suitable for your intended use.

Subject to any terms implied by law which cannot be excluded, we disclaim all liability for any harm, loss or damage, including but not limited to any loss or damage caused by pests, diseases and/or viruses, or caused or resulting from your use of or reliance on any of the information provided in this newsletter.

We strongly recommend that you obtain independent advice before you make any decisions in reliance on this newsletter.

Specifically you should make and rely on your own enquiries in relation to any district performance, cropping ability, pollination or any other aspect of the cultivars and/or rootstock mentioned in this newsletter.

Our liability for a breach of a condition or warranty implied by law and which cannot be excluded, is limited to the extent possible, at our option, to:

- the supply of the relevant replacement trees, or equivalent trees; or
- the payment of the cost of the replacement trees, or equivalent trees.

We will in no event be liable for any loss of profits or other loss or damage whatsoever.

Comments & Commercial Comparator

Not enough crop, pale with mild juice and flavor.

Factree Editorial Notes:
